* In the current year, the Private equity segment has been refined into two segments namely Mining and Other investments as a result of the increased mining processing activities. Comparative figures have been re-presented to reflect the impact of the change.

** The Private wealth and investments segment has been represented as a discontinued operation as a result of the disposal of the client book.

Notes to the condensed consolidated financial statements
(all figures in R'000)

BASIS OF PREPARATION

The condensed consolidated financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for provisional reports and the requirements of the Companies Act of South Africa. The Listings Requirements require provisional reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting. The accounting policies applied in the preparation of the condensed consolidated financial statements are in terms of IFRS and are consistent with those applied in the previous consolidated annual financial statements.

The reviewed condensed consolidated provisional financial statements have been presented on the historical cost basis, except for other investments and certain other financial liabilities, which are fair valued. These condensed consolidated financial statements are presented in South African Rand, rounded to the nearest thousand, which is the group's presentation currency.

These reviewed condensed consolidated provisional financial statements incorporate the financial statements of the company, its subsidiaries and entities that, in substance, are controlled by the group and the group's interest in associates. Results of subsidiaries and associates are included from the effective date of acquisition up to the effective date of disposal. All significant transactions and balances between group enterprises are eliminated on consolidation.

Comparatives on the statement of comprehensive income have been re-presented to show the effect of the discontinued operations (refer to note 3).

NOTES

1. Revenue

Revenue includes trading revenue and fees earned from advisory services, brokerage, fund management fees, asset administration fees and

client service fees.

2. Fair value adjustments and impairments

	Reviewed 28 February 2018	Audited 28 February 2017
Figures in R'000		
Fair value adjustment on financial assets and liabilities designated at fair value through profit or loss	43 714	8 639
Impairment reversal/(loss) of loans in other non-current assets	-	8
Impairment reversal/(loss) on loans to associates	(2 472)	600
	41 242	9 247

3. Discontinued operations

A strategic decision was made in June 2017 to dispose of the group's private wealth and investments business. This culminated in the group disposing of the client book that was held in Vunani Wealth and Investments Proprietary Limited ("VWI"). The sale of the business included the transfer of VWI's executive management's employment contracts to the purchaser. As the disposal related to a separate line of the group's business, the related activities have been presented as a discontinued operation.

The comparative information in the February 2017 consolidated statement of comprehensive income has been re-presented to disclose the discontinued operations separately from continuing operations.

	Reviewed 28 February 2018	Audited 28 February 2017

Basic and diluted headline earnings per share from discontinued operations	(1.5)	(1.6)

5. Other investments and other financial liabilities

Unlisted investments are fair valued annually by the directors. Listed investment prices are determined with reference to the share price at period-end.

Both listed and unlisted investments are designated at fair value through profit or loss. Financial liabilities are either accounted for at amortised cost or designated at fair value through profit or loss. The group designates certain financial liabilities at fair value through profit or loss upon initial recognition.

Ring-fenced special purpose entities have historically been used to house the group's geared equity investments and any financial liabilities that relate to such investments. Financial assets and liabilities that arise in terms of these ring-fenced structures are both fair valued through profit or loss in terms of IAS 39 Financial instruments: Recognition and measurement.

For additional information on the fair values of other investments and other financial liabilities, please refer to note 8 of these financial results.

6. Authorised and issued stated capital

The authorised stated capital at 28 February 2018 was 500 million ordinary shares of no par value (2017: 200 million ordinary shares of no par value). 164 896 943 shares were in issue at 28 February 2018 (2017: 161 296 081).

	Reviewed 28 February 2018	Audited 28 February 2017
Weighted average number of ordinary shares (000s)		
Issued ordinary shares at the beginning of the year	161 296	114 665
Effect of share issue	1 899	17 203
Effect of own shares held	(5 219)	(5 473)
Weighted average number of shares in issue during the year	157 976	126 395
Number of shares in issue at the end of the year (000s)	164 897	161 296
Dilutive weighted average number of ordinary shares (000s)		
Issued ordinary shares at the beginning of the year	161 296	114 665
Effect of share issue	1 899	17 203
Effect of own shares held	(5 219)	(5 473)
Effect of dilutive shares	2 061	669
Diluted weighted average number of shares in issue during the year	160 037	127 064
Number of shares in issue at the end of the year (000s)	164 897	161 296

The shares issued as part of the employee share incentive scheme could potentially dilute basic earnings in the future. The employee shares have a dilutive effect. The impact of the potential dilutive shares is immaterial.

7. Net cash utilised by operating activities

Decrease/(increase) in accounts receivable and payable from trading activities	3 238	(516)
Cash generated/(utilised) by operating activities	28 488	(161)

8. Financial instruments carried at fair value

The fair value of a financial instrument is the price that would be received for the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is a presumption that an entity is a going concern without any intention or need to liquidate, to curtail materially the scale of its operations or to undertake a transaction on adverse terms. Fair value is not, therefore, the amount that an entity would receive or pay in a forced transaction, involuntary liquidation or distressed sale.

The existence of published price quotations in an active market is the best evidence of fair value and, where they exist, they are used to measure the financial asset or financial liability. A market is considered to be active if transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis. Financial instruments fair valued using quoted prices would generally be classified as level 1 in terms of the fair value hierarchy.

Where a quoted price does not represent fair value at the measurement date or where the market for a financial instrument is not active, the group establishes fair value by using valuation techniques. These valuation techniques include reference to the value of the assets of the underlying business, earnings multiples (e.g. unlisted investments), discounted cash flow analysis (e.g. unlisted investments, loans and advances) and various option pricing models.

Inputs typically used in valuation techniques for loans and advances, other investments, investments in associates and other financial liabilities, include discount rates, expected future cash flows, dividend yields, earnings multiples, volatility, equity prices and commodity prices.

Valuation methodologies and techniques applied for level 3 financial instruments include a combination of discounted cash flow analysis, application of earnings multiples on sustainable after tax earnings and current and projected net asset values to determine overall reasonability. The valuation technique applied to specific financial instruments depends on the nature of the financial instrument and the most appropriate valuation technique is determined on that basis.

After the valuations of the unlisted financial assets and liabilities are performed, these are presented to the group's investment committee for independent review. All significant valuations are approved by the investment committee.

The valuation methodologies, techniques and inputs applied to the fair value measurement of the financial instruments have been applied in a manner consistent with that of the previous financial period.

Financial assets not measured at fair value				
Loans to associates	27 387	21 949	22 953	20 761
Loans in other non-current assets	3 683	3 909	5 394	5 168
	133 244	128 032	97 050	94 632
Financial liabilities measured at fair value				
Designated at fair value through profit or loss on initial recognition	(5 084)	(5 084)	(6 610)	(6 610)
Trading securities	(86)	(86)	(1 934)	(1 934)
Financial liabilities not measured at fair value				
Other financial liabilities	(93 645)	(94 016)	(136 684)	(139 172)
	(98 815)	(99 186)	(145 228)	(147 716)
Total	34 429	28 846	(48 178)	(53 084)

The carrying amounts of cash and cash equivalents, accounts receivable from trading activities, trade and other receivables, bank overdraft, accounts payable from trading activities and trade and other payables reasonably approximate their fair values and are therefore not included in the table above.

Fair value hierarchy

The table below analyses recurring fair value measurements for financial assets and financial liabilities. These fair value measurements are categorised into different levels in the fair value hierarchy based on inputs to the valuation techniques used.

The different levels are defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

10% decrease	(868)	(190)

9. Events after reporting date

There have been no material events between the period end and the date of the signing of the results.

10. Dividends

A dividend of 5.2 cents (4.16 cents net of dividend withholding tax) per share was paid to ordinary shareholders on 28 July 2017. Total cash of R8.2 million (net of treasury shares held) was paid to ordinary shareholders.

Dividend declared

Notice is hereby given that a gross ordinary dividend of 6.2 cents per share (2017: 5.2 cents per share) has been declared out of income reserves

on 25 April 2018 and are payable to ordinary shareholders in accordance with the following timetable.

In terms of dividend tax effective since 1 April 2012, the following additional information is disclosed:

- The local Dividend Withholding Tax rate is 20%
- 164 896 943 shares are in issue
- The gross ordinary dividend is 6.20000 cents per share for shareholders exempt from paying Dividend Withholding Tax
- The net ordinary dividend is 4.96000 cents per share for ordinary shareholders who are not exempt from Dividend Withholding Tax
- Vunani Limited's tax reference number is 9841003032

Timetable	2018
Declaration and finalisation date announcement	Wednesday, 25 April
Last day to trade cum dividend	Tuesday, 24 July
Shares commence trading ex-dividend	Wednesday, 25 July
Record date	Friday, 27 July
Dividend payment date	Monday, 30 July

No dematerialisation or rematerialisation of shares will be allowed for the period from Wednesday, 25 July 2018 to Friday, 27 July 2018, both dates inclusive.

Dividends are declared in the currency of the Republic of South Africa. The directors have confirmed that the company will satisfy the liquidity and solvency requirements immediately after the payment of the dividend.

11. Going concern

The directors have made an assessment of the ability of the company and its subsidiaries to continue as going concerns and have no reason to believe the businesses will not continue as going concerns for the foreseeable future.

REVIEW OPINION

The condensed consolidated financial statements for the year ended 28 February 2018 have been reviewed by KPMG Inc., who expressed an unmodified review conclusion. The auditor's report does not necessarily report on all of the information contained in this announcement/financial results. Shareholders are therefore advised that in order to obtain a full understanding of the nature of the auditors engagement they should obtain a copy of the auditor's report together with the accompanying financial information from the issuers registered office.

Overview and Prospects

The reporting period was dominated by heightened volatility in the Rand-exchange rate in the run-up to, and aftermath of the ANC elections, exacerbated by the further sovereign rating downgrades - to below investment grade by two ratings agencies. The fourth quarter numbers of 2017 indicate further recovery of the economy driven by private consumption and fixed investment. The change in leadership of the ANC and the country has resulted in improved confidence in the economy amongst consumers and business. The change in the direction of economic policies, reshuffling of cabinet and the budget which increased tax helped the country avoid further downgrades. The current prices of commodities will help growth in the mining sector. Globally the potential trade wars between China and the USA threaten to dampen growth in the global economy as several countries could be impacted directly or indirectly. The impact on South Africa is expected to be minimal as the country's exports to the USA are less than 2% of GDP and the exposure of the JSE-listed shares to the USA economy is very low. Business conditions are looking more favourable and as a result domestic real economic growth performance for 2018 is expected to be 1.8%.

Vunani's performance for the 12 months to 28 February 2018, has shown improvement when compared to the prior period to 28 February 2017.

Vunani generated total comprehensive income for the year of R44.4 million (2017: R37.8 million), while total comprehensive income attributable to equity holders of the company amounted to R40.5 million (2017: R36.8 million).

The group's reportable segments are as follows:

- Fund management
- Asset administration
- Investment banking
 - Advisory services
 - Institutional securities broking
- Private equity
 - Other investments
 - Mining
- Private wealth and investments

Fund management

The fund management segment includes the group's investments in Vunani Fund Managers Proprietary Limited ("VFM"), Purpose Vunani

Asset Management (Private) Limited ("PVAM") and Alliance Capital Limited ("Alliance"). The segment reported revenue of R64.7 million for the year ended 28 February 2018 (2017: R64.5 million), which is a slight increase from prior year. The reportable segment profit amounted to R4.3 million for the year compared to R6.0 million at 28 February 2017.

VFM's performance slowed down during the year, due to lower performance fees being earned. Despite this VFM won new assets under management, which increased from R15.9 billion at 28 February 2017 to R20.9 billion at 28 February 2018. The increase in assets under management is key to improving the profitability of VFM.

PVAM's performance improved during the year due to increased revenue being earned from trading treasury bills. PVAM's assets under management decreased to \$24.2 million at 28 February 2018 from \$31.1 million at 28 February 2017.

Alliance contributed R1.4 million in equity accounted earnings for the year. Dividends amounting to R0.7 million were received from the investment during the year.

Asset administration

The asset administration segment includes the group's investment in Fairheads Benefit Services Proprietary Limited ("Fairheads") which is held through Mandlalux Proprietary Limited ("Mandlalux").

Fairheads contributed revenue of R124.8 million to February 2018. The segment reported a profit of R6.7 million compared to R16.6 million in 2017. The prior year included a once off R12.2 million gain on the step-up acquisition of Fairheads. Fairheads' assets under administration amounted to R6.2 billion at 28 February 2018 (2017: R6.2 billion).

Advisory services

The segment generated revenue of R4.9 million compared to R5.2 million for the year ended 28 February 2017. The decrease in performance is due to deals taking longer to complete. The segment reported a loss of R1.5 million (2017: R0.5 million) during the year.

Institutional securities broking

This segment includes equity, derivative and capital market trading services to institutional clients. The segment generated revenue of R63.7 million to February 2018 compared to R68.0 million in 2017. The decrease in revenue is due to the decrease in trading volumes in the market. The segment reported profit for the year of R1.4 million (2017: R2.6 million) despite the challenging economic conditions. With a stable team and closely managed cost base for both the institutional equity, derivative and capital markets businesses, the focus will be on revenue growth through the expansion of the client base and exploring diversified products.

Private equity

The private equity segment has been refined into two segments, namely other investments and mining. The other investments segment holds the group's listed, unlisted investments and property investments. The mining segment is focused primarily on coal processing and mining investments that are considered in partnership with well-capitalised and strategic associates.

Other investments

The other investments segment generated revenue of R0.5 million (2017: R nil) during the year. The segment reported a loss of R5.3 million for the year (2017: profit of R15.2 million). The loss is attributable to negative fair value adjustments on the equity accounted investments.

Mining

The mining segment includes the group's investment in Vunani Resources Proprietary Limited ("VR"), Vunani Mining Proprietary Limited ("VM") and certain equity accounted investments. The segment generated revenue of R92.3 million (2017: R23.6 million) and contributed R41.2 million (2017: 8.9 million) in profit to the group. The improved performance is attributable to increased coal processing activities within VR and the positive fair value adjustments on the mining investments that are carried at fair value through profit and loss.

Discontinued operations - Private wealth and investments

During the year, the private wealth and investments business was disposed of to a third party. As a result, the segment is now accounted for as a discontinued operation. The segment reported a loss of R1.3 million for the year ended 28 February 2018 (2017: profit of R0.2 million).

Financial performance

Revenue for the group increased by 90% to R350.9 million (2017: R188.6 million) for the year ended 28 February 2018. The increase is due to the consolidation of Fairheads' full year's results and the increased revenue from the mining segment.

Other income comprised mainly once-off income that was realised during the year and would consequently not be expected to be repeated in subsequent financial periods. Other income for the current year has decreased by 47% from R4.7 million to R2.5 million in February 2018.

Investment income is received in the form of dividends. Total investment income for the year amounted to R5.2 million compared to R1.6 million for the year ended 28 February 2017. The improvement is as result of an increase in dividend declarations from investee companies.

Positive fair value adjustments and impairments of R41.2 million (2017: R9.2 million) relate to a net increase in the value of the groups' listed and unlisted investment portfolio that has been designated at fair value through profit or loss.

Equity-accounted loss for the year amounted to R10.8 million (2017: R23.3 million). The group's investment in Fairheads was classified as an associate until 31 December 2016 and as such, its earnings were equity accounted until that date. Furthermore, Vunani's investment in Workforce Holdings Limited ("Workforce") is structured such that Vunani's interest is a joint venture and accordingly, the fluctuations in the fair value of Workforce are equity accounted.

Operating expenses increased by 75% from R187.3 million to R328.0 million. The consolidation of Fairheads has resulted in an increase in operating expenses. The share based payment expenses have increase as a result of the issue of additional shares to staff, have also contributed to the increase in expenses. The devaluation of the Rand during the year resulted in increases in information and technology costs, which are typically dollar denominated. The group remains focused on cost containment and monitors spending on an ongoing basis.

Finance income increased to R3.6 million for the year compared to R2.8 million to 28 February 2017. Interest from investments decreased from R1.6 million to R0.1 million as a result of less interest being charged on loans. Finance costs increased from R3.9 million for the year ended 28 February 2017 to R11.1 million for the current year, as result of the consolidation of Fairheads.

The increase in other investments and other non-current assets was mainly due to positive fair value adjustments on the listed and unlisted investments.

The issue of shares resulted in an increase in stated capital of R6.6 million. The share-based payments reserve movement of R5.9 million (2017: R3.2 million) is attributable to the current year IFRS 2 charge. The profit for the year attributed to non-controlling interest amounted to R4.5 million.

Prospects

Vunani's executive believe that a continued recovery in business and consumer confidence will have a positive effect on the group's ability to further grow the business and enhance shareholder value. The group will continue its focus on improving the performance of its operating businesses as well as improving synergies amongst them as these will form a solid platform to ensure the long-term success of Vunani. Vunani is cautiously optimistic that the performance of the last twelve can be maintained and that it can fuel growth in the immediate and long-term future.

FORWARD-LOOKING STATEMENTS AND DIRECTORS' RESPONSIBILITY

Statements made throughout this announcement regarding the future financial performance of Vunani have not been reviewed or audited by the company's external auditors. The company cannot guarantee that any forward-looking statement will materialise and accordingly, readers are cautioned not to place undue reliance on any forward-looking statements. The company disclaims any intention and assumes no obligation to update or revise any forward-looking statement even if new information becomes available as a result of future events or for any other reason, other than as required by the JSE Listings Requirements.

The directors take full responsibility for the preparation of the condensed consolidated provisional financial statements.

Signed on behalf of the board of directors by E Dube and T Mika 25 April 2018.
